

Status of the Orange County Municipal Storm Water Permit (Order No. R9-2002-0001)  
(Dave Gibson)

Seven petitions have been filed requesting the State Board to review Order No. R9-2002-0001 (Table 1). Twelve of the thirteen Copermittees have filed or joined petitions. At the request of the petitioners, the State Board is holding four of the petitions in abeyance pending completion of administrative or judicial reviews of municipal storm water discharge permits adopted by the Los Angeles, Santa Ana, and San Diego Regional Water Quality Control Boards. Also, six of these petitions included a request for the State Board to stay all or part of the Order pending review. The State Board has not yet announced whether it will consider ordering a stay of the Order. Staff is awaiting further action by the State Board and will provide additional information in the May Executive Officer's Report.
